

HAWAII DENTAL ASSOCIATION
FOUNDATION

ANNUAL REPORT
2017-2018

President's Greetings

I am so proud to share with all of you, the Hawaii Dental Association Foundation's (HDAF) first ever Annual Report! What began as a concept in 2015 by the Hawaii Dental Association Board of Trustees, became a reality when the HDAF was incorporated in 2016 as a NEW public foundation in the state of Hawaii.

Our mission is straightforward: "To improve the oral health in the state of Hawaii, by supporting access to oral care, educational programs and other charitable community outreach programs." The HDA members wanted a mechanism in which to volunteer their time, services, and dollars to help provide dental and oral care to the underserved population of our state; and now they are able to, through a very young but strong Hawaii Dental Association Foundation!

Many of you are probably aware that the Hawaii Dental Association has been the driving force behind the "Give Kids A Smile" (GKAS) community program for many years in Honolulu. Under the Foundation's guidance, the GKAS program has matured by recently expanding to Maui, where we are able to help many more children in the community. We have future plans to expand to Kauai and Hawaii island, and will look to our friends on these islands for leadership and support.

Please consider being part of the Hawaii Dental Association Foundation community. Visit our website www.hawaiidentalfoundation.org to learn more about our activities, including our grant-giving initiative.

I'd like to send my sincerest thanks to the Foundation Board members and the GKAS committees for their leadership and the behind the scenes work, and to the Hawaii Dental Association Board of Trustees for their support. I especially want to call out all of you – our members who have donated and pledged, to make these past few years possible.

We are excited about where we are going, and invite you to be a part of our growth, through volunteer support and charitable contributions. We look forward to improving the oral health of Hawaii's keiki and kama'aina. Because together ... we can help Hawaii smile!

Warmest Aloha,

Gary S. Yonemoto, DDS, MS
